

# How to make a:

# Face Mask

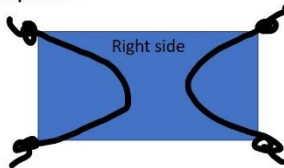

## Supplies:

- Cotton fabric
- Cotton flannel
- Rope or thin flat elastic

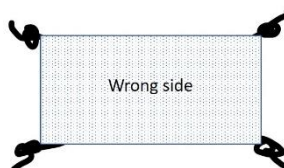

## Instructions:

- **Cut one rectangle of both the fabric and flannel to 9"x6"** It's easiest to measure out this pattern on a piece of paper and then cut around the paper pattern piece.
- **Cut 2 7" pieces of elastic and tie a knot at each end (if using rope elastic).** If using flat elastic, do NOT tie a knot at the ends.
- **Arrange fabric pieces right sides together with elastic on the inside.** (see figure below)

Step One:

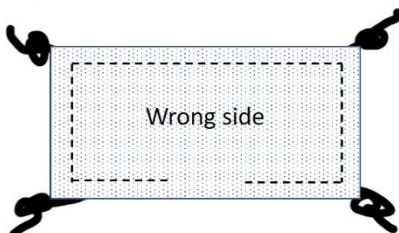

Step Two:

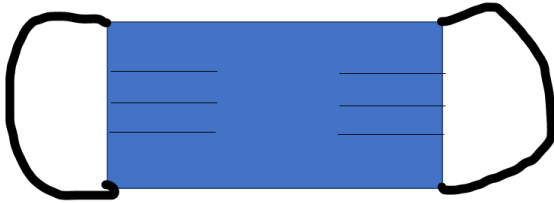

- **Begin at the center bottom edge and sew to the first corner, stop. Sew over the elastic with the knot out into the corner.** Stich back and forth over the elastic a few times to secure.
- **Continue to sew around the mask, securing elastic by stitching back and forth a few times at each corner.** (see figure below)

Stitch guide:

- **Stop sewing at the middle bottom of the mask, leaving 1.5"-2" open for turning.**
- **Cut thread, turn mask right side out.**
- **Pin three small tucks on each side of the mask, making sure tucks are in same direction.** (see figure below)

- **Sew around the edge of mask.**

If you have any questions, please message us on FB or IG @themakerypa or email us at [hello@themakerypa.com](mailto:hello@themakerypa.com).

**Once your masks are complete**, please message us on FB or IG @themakerypa or email us at [hello@themakerypa.com](mailto:hello@themakerypa.com) and we will arrange a safe pickup and deliver your masks to those who need them in our area!

Thank you for being a helper! We are in this together. ❤️
